ABOUT ME

My name is Kirsty and i am the photographer behind the lens! I live in staffordshire with my husband and my son. I have always loved taking photographs from a young age and love meeting new families within my career. I am extremely lucky to call this my job!

I have been a professional photographer for 6 years specialising in Weddings and Family portrait photography. I have a photography studio based at my home in Stafford and I'm fortunate that lots of my work comes through referrals from happy couples and families!

I would say my style of photography is relaxed yet fun meaning i capture all the moments that count.

I know getting married can be costly so i try to keep my prices as fair as possible. My wedding packages start from £740 however i can tailor any package to your needs.

WHAT MY CLIENTS SAY

'We absolutely love our wedding photos. They capture so many little details that we had either missed or forgotten, with Kirsty managing to work miracles with two of the most unphotogenic people going! Kirsty was easily contactable, replied quickly to messages, was happy to listen to our ideas and most importantly documented our big day to great effect - unobtrusively capturing images we will enjoy for the rest of our lives. Kirsty has such a fantastic approach to her passion, which has so deservedly become her profession - she is relaxed, friendly & down to earth. A joy to have around leading up to (our engagement shoot was also fab) and on the day. Rachael & Mark '
